Russian - Native

# YURIY DEGTYARENKO

## JUNIOR FULL STACK DEVELOPER

### SUMMARY

As a motivated and aspiring Front-End developer, I possess a strong foundation in HTML, CSS, JavaScript, and React.

I am a fast learner and thrive in challenging and dynamic environments where I can apply my creative problem-solving skills.

I bring a proactive and enthusiastic approach to every project, always seeking opportunities to broaden my knowledge and skill set. I am committed to delivering high-quality work and exceeding expectations. Although I may not have professional experience yet, I am confident in my ability to contribute positively to any development team.

### PROJECT EXPERIENCE

#### [Ice Cream \[Link\]](#)

HTML, SASS, JS, Parcel

An ice cream cafe website that indulges the sweet tooth of its visitors. In this project, my development role focused on creating the site's header using HTML5 and SCSS.

I worked closely with the team and actively participated in the optimization of the website. Additionally, I implemented a scroll up button feature to allow users to quickly return to the top of the page.

#### [Book Store \[Link\]](#)

HTML, SASS, JS, REST API, AXIOS, Parcel

Group project to develop an online platform that offers a diverse range of books for purchase. In this project, my role was as a developer

One of my key contributions was the implementation of a dynamic light and dark theme feature for the entire website. I ensured a seamless user experience by developing the necessary code to allow users to switch between the light and dark themes according to their preference.

#### [Drink Master \[Link\]](#)

HTML, CSS, JS, REACT, REDUX, NODE.JS, MONGO DB, EXPRESS

This project is a website designed for cocktail and beverage enthusiasts. It provides users with the ability to discover recipes for a wide range of cocktails and even create their own unique concoctions. The site offers an extensive selection of recipes and ensures user convenience for experimenting with flavors.

In this project, I played a pivotal role as the backend team lead. My primary responsibilities included setting up the server and Swagger for seamless functionality, as well as overseeing the deployment to the global network to ensure smooth accessibility.

### WORK EXPERIENCE

Data entry and document processing specialist

Ekol logistics | Sep 2017 - nov 2023

- Processed various types of documents, ensuring accuracy and attention to detail in data entry and formatting.
- Communicated effectively with clients to gather necessary information and address inquiries or concerns.
- Collaborated with team members to streamline document processing procedures, resulting in increased efficiency.
- Assisted in the development and implementation of standardized templates for data entry and document formatting.
- Demonstrated proficiency in Microsoft Excel, Word, and other relevant software applications.
